****Value priced and well spec'd Nissan Note e-Power hatchback that offers a unique blend of style, technology, and efficiency. Its advanced e-Power hybrid system delivers impressive fuel economy, making it an ideal choice for long commutes or road trips. Unlike traditional hybrids, the Note e-Power uses its petrol engine solely to generate electricity, which then powers the electric motor that drives the wheels. This results in a remarkably quick, quiet and smooth driving experience and along with all of the safety features gives it a top notch 5 STAR safety rating****
